## Fiberglass Cloth Tape

### Description:

Electrical insulating glass cloth tape is made by coating high-temperature thermosetting silicone adhesive on alkali-free glass fiber cloth. It possesses excellent adhesive performance and flame-retardant properties, with a continuous operating temperature of up to 200 °C.

### Application:

Used for various coil/transformer and motor applications, high-temperature coil insulation wrapping, wire harness winding, and splicing.

### Storage:

When stored under controlled humidity conditions (10°C to 27°C and relative humidity <75%), the shelf life of this product is 5 years from the date of manufacture.

### Contact:

Address: No.1 East Zhongshan Road, Rugao City, Jiangsu, China

## Technical Datasheet

### Specification:

Backing: Fiberglass Cloth

Adhesive: Silicone

Thickness (μm) : 180

Backing Thickness (μm) : 140

Break Strength(N/inch):≥500

Elongation (%) : ≤5

Adhesion to steel(90°N/inch):≥7.5

Dielectric Breakdown(KV):≥3000

Temperature Class: 180°C (H)
