

JD4321R

GLASS FILAMENT ELECTRICAL TAPE

Jiuding Tape

Technical Datasheet

Description:

JD4321R is a polyester film/glass filament tape. Polyester film provides puncture resistance, abrasion resistance and resistance to edgetear. High tensile strength, conformable backing with aggressive adhesive for a variety of heavy duty insulating and holding applications. Very resistant to chemicals, solvents and aging, and offers excellent dielectric strength and insulation resistance.

Application:

Lead and saddle tie down, bundling motor and transformer coils, and coil covering applications.

Specification:

Backing: Polyester film+glass fiber
Adhesive Type: Acrylic
Color: Clear
Total Thickness (μm) : 132
Film Thickness (μm) : 25
Break Strength(N/inch): 750
Elongation (%) : 5
Adhesion to steel(90°N/inch): 11
Initial ac (#) : 16
Holding (h) : >24
Dielectric Breakdown (V) : 5000
Temperature Class: 155°C (F)
